# Meet The Team

The backbone to any business is its employees and capabilities, and IMPAC is proud to have highly experienced and professional team working together to serve the industry needs at a global level.

IMPAC have NACE qualified personnel comprising of Engineers and Technicians from various disciplines such as Electrical, Mechanical, Material, Corrosion, IT, etc.

## Anand Mohan

### Chief Finance Officer

---

As Financial Officer, it is with great pride that I introduce [SNI India LLP](#), a dynamic part of the IMPAC Group. Since our inception in July 2020, we've seen remarkable financial growth, driven by strategic planning and sound investments. The acquisition of [Raychem](#) RPG's pipeline business in October 2020 has significantly strengthened our financial foundation, enabling us to expand our reach and enhance our service offerings.

Our team remains focused on driving financial performance, ensuring that our growth is sustainable and aligned with our long-term vision. We are excited about the future and look forward to continuing our journey of success together.

# Corrosion Protection System ( Coatings )

***SNI India LLP is a leading supplier of corrosion coating solutions.***

We are a trusted partner to companies worldwide, helping them add value to their products and stand out in the market. Our innovation-driven, customer-focused approach ensures we meet our clients' needs.

We work closely with clients to deliver superior, customized solutions and also offer on-site coating services.

Below are the supplies and services provided by SNI INDIA LLP:

- ▶ Heat Shrink Sleeves (HSS)
- ▶ Potable Water Food-Grade Epoxy Coatings
- ▶ On-Site Coating Applications of All Types
- ▶ Petrolatum Tape Coatings
- ▶ Abrasion Resistant Overcoat/ Overlay (ARO) - Epoxy and UV based
- ▶ SNI-Shield - modified liquid rubber, special powder, & anti-corrosion additives
- ▶ Anti-Corrosion Coating for Complex Fittings: Valves, Flanges, Gap Fillings & Sea Piles
- ▶ Sub-Contract , Training and Certification for Applicators
- ▶ Cold Applied Tape Coatings
- ▶ Polyurethane Coatings
- ▶ Flow Coat Epoxy Coatings
- ▶ Visco-Elastic Coatings

# Cathodic Protection System

***CPS IMPAC Pvt Ltd ( Sister Concer of SNI India LLP ) and Part of the IMPAC Group delivers tailored solutions, ensuring client success in every challenge.***

CPS is confident in its engineering expertise to deliver comprehensive solutions in design, manufacturing, project management, maintenance, and re-engineering. Our commitment to timely service and leadership has secured our market position.

With highly experienced and NACE-certified engineers, we excel in challenging site conditions and project execution. Our team's expertise in cathodic protection solutions allows us to offer complete turnkey services, helping clients extend the life and improve the operation of their assets.

- ▶ AC/DC Transformer Rectifier Unit (Manual/Automatic/Smart & Oil /Air Cooled)
- ▶ Long line Polymeric Type Anodes
- ▶ Sacrificial Anodes (Magnesium, Aluminum, Zink, Water Anode, Zink Ribbon)
- ▶ Impressed Current Anode (Silicon Chromium, Mixed Metal MMO, Linear)
- ▶ Anode Caps, Data Logger & Remote Monitoring System
- ▶ Reference Electrode
- ▶ Cable & Cable Accessories
- ▶ Polarization Cell (Permanent/Potable)
- ▶ Monolithic Joints /Insulation Gaskets
- ▶ Surge Arrester, Coke Breeze
- ▶ Electrical Resistance Probe
- ▶ Computerized Test Station
- ▶ Junction Box

# Accessories For The Projects

## Casing Insulators

Casing Insulators are used to support the carrier pipe and electrically isolate the carrier pipe from the casing pipe at the cased crossing.

## Rockshield

Rockshield is a flexible mechanical protection padding consisting of a tough High-Density Polyethylene or Polypropylene mesh, designed especially for the protection of anticorrosion coatings of pipelines laid in rocky terrain and backfill.

## Warning Tape / MAT For Pipelines

Warning Tape / MAT For Pipelines are underground warning items used to warn anyone digging above any pipework that there are pipes below.
